Semester Averages

- If a student has an Incomplete for any marking period or for the final exam, the Semester Average will be an Incomplete.
- If a student has a blank for any marking period or for the final exam, the Semester Average will be blank.
- No report card grades lower than 50 are acceptable. When the Semester Average is calculated, if students have lower than a 50 on the Scores page, a 50 will be used when calculating the Semester Average.

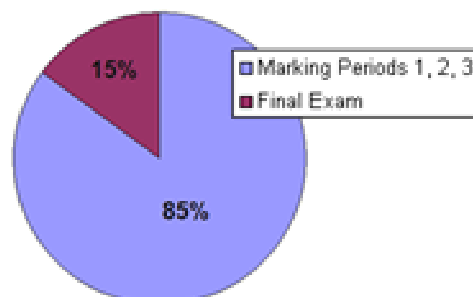

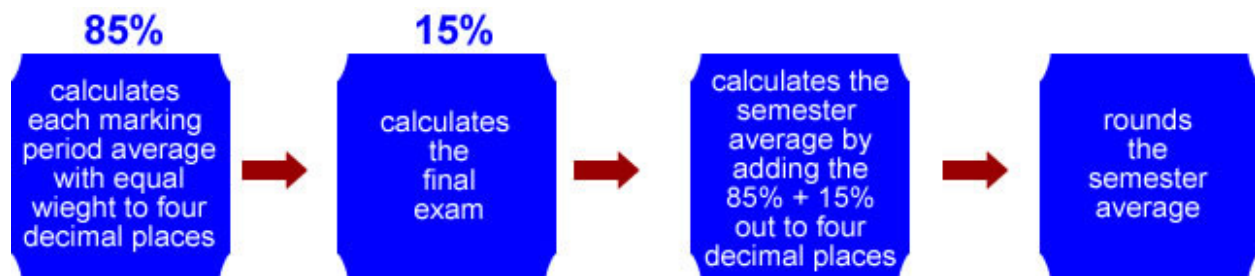

Viewing the Semester Average

The Semester Average will be calculated when the verification sheets are printed. The Semester Average will not display on the **RC Summary** page (RC Run 3 and 6) until after verifications.

Marks				
M1	M2	M3		
MP	MP	MP	SM	EX

Calculating the Semester Average

You can determine a student's Semester Average before the verification process by hand. The 3 marking periods count as 85%, and the final exam as 15% of the Semester Average. Please note that eSchoolPlus calculates in this fashion:

Changing the Semester Average

The Semester Average cannot be changed on the RC page. The column appears, but is grayed out.

If you wish to change a student's Semester Average, do so by overwriting the Marking Period 3 report card grade. Change the grade on the RC page, and follow your campus verification sheet grade change process. Changing the final marking period grade for MP1 or MP2 requires the completion of a grade change form according to your campus grade change procedures.
